Title

Browsing based Chinese input method

Preliminary Class

345

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

A Browsing Based Chinese Input Method

Dear Sir:

I was notified that Page 57 of the patent application was missing. As I can remember, I did send in all the pages. Enclosed please find another copy of page 57.

I have also found some errors in the filling receipt:

1. The title is "A Browsing based Chinese Input Method".
2. There are 33 Figures on 27 pages.
3. There are 20 claims in total.

Thanks for your help.

already known through a word or phrase selection in the cascade Multi-Window. It will show the first symbol of the phonetic symbol string of the word if the user keyed in the word as a phonetic symbol string. When the data in the Sentence Editing Buffer is full, it will flow to the Text Accumulation Window. The data will also flow to an application program if the valve between the Sentence Editing Buffer and the application program is open. The Sentence Editing Buffer also contain several function keys including the following two:

a. ⬅️ : When clicked, the text content in the Sentence Editing Buffer will flow to the Text Accumulation Window.

b. ✏️ : A button used to delete all the information in the Sentence Editing Buffer.

14. The platform of claim 12, wherein said Attribute Viewing Window is a window containing a fixed number of labels. These labels will show the attributes of a selected word in the Sentence Editing Buffer. In the case where a phonetic symbol string is used as the attributes of the word, that phonetic symbol string will be shown in the Attribute Viewing Window.

15. The platform of claim 12, wherein said Text Accumulation Window will collect sentences flowed in from the Sentence Editing Buffer. The collected text data will flow to an application program if the valve between the Text Accumulation Window and the application program is open.

16. The platform of claim 12, wherein said platform provides a user the following control paths between the windows:

a. From the Keypad to the cascade Multi-Window.
